Sampling Valves

(As per NTPA Rule Book, Page: 32, Letter: L)

All divisions are required to have a sample valve installed for water and fuel injection sampling, nearest the pump as possible. (Multi engine vehicles are only required to have one engine with a sampling valve.) The "grace" period to be compliant with the new rule has ended, please do your part in meeting this requirement.

Please note that the valves must be easily accessible to gather a sample easy with a 4-5" inch tall specimen bottle. If the valve is in a confined space, then you are to attach a hose to valve outlet bringing the pour point to an open space for ease of collecting sample.

For those whom are looking for valves and associated fittings, a good source for these related items is: Proformance Pro's - Randy - (906)639-2398 or (920)371-1006.

If you have any questions in regards, please feel free to contact one of the Wisconsin NTPA Tech Officials listed below:

Entry Registration & Tech Inspections at Events

Please note that Event Entry Registration and Tech Inspections of vehicles at the upcoming events will close one (1) hour prior to the start time of the particular event. If you are going to be late coming to the event, it is your responsibility to call and indicate that you are running late to the event due to unforeseen circumstance(s). Failure to do so will result in an additional \$20.00 late fee collected by the Entry Clerk. For those who do arrive earlier, when you arrive at the event, please proceed and register at the Entry Registration Area as soon as possible, then proceed to have your vehicle tech inspected. We ask that you do not wait until the last possible minute to register and/or have your vehicle tech inspected. We ask for your cooperation, as we strive to operate more efficiently and start our events on time.

The following list of people below can take your call at the event to give notification of your late arrival:

Luke Van Handel - (920)915-6420

Roger Kutz - (262)949-9625
